Responses to Prior Audience Comments

Superintendent Abrego—There were responses to audience comments made on November 28, 2017. I am pleased to say that Adams 14 is a leader in the state in this area. Last year approximately 46 seniors earned this distinction. I personally feel we should strive to have more than 100 seniors earn the Seal of Biliteracy each year, which would make us the #1 district in the state. Various individuals stated for Adams 14 to keep the Seal of Biliteracy. We could not agree more. We totally support the Seal of Biliteracy and want to offer this to every student who can master any second language. Whenever students are truly bilingual, and have attained English proficiency, they will have the tools and knowledge to succeed. We fully support bilingual education as a model to help our limited English proficient (LEP) students attain English proficiency, develop high levels of academic attainment in English, and meet the same challenging state academic content and student achievement standards as all children are expected to meet. Adams 14 is committed to providing materials and resources to all classrooms, and professional development to ALL teachers to support the development of our limited

English proficient population as well as all other students. Adams 14 does not support the English only model as a method to elevate our Limited English Proficient (LEP) students. However, Adams 14 will respect the request of parents who choose the “English only model” as it is their right under the law. Adams 14 clearly understands that English learners must have unique supports for this to learn English and have success in our classrooms. We are committed to providing these supports. I have just stated that Adams 14 is committed to having an outstanding English Language Acquisition program that supports and meets the needs of our Limited English Proficient (LEP) students. We agree that having the involvement and input from our principals, teachers, staff, parents, and community is very important to the success of our bilingual, ELD, and Biliteracy programs. We also understand that each school has a unique community of learners. Therefore, I have instructed principals to meet with all stakeholders to meet the needs of their Limited English Proficient (LEP) students and develop the best program possible for their particular school. Each school’s program must; meet legal requirements; Title I, Title III; have input from all the stakeholders mentioned above; ensure they meet the needs of their students with high quality teachers; implement their program with fidelity. The district will support each school with materials, resources, and professional development. All parents value having a relationship with their child’s teacher. That is why we have developed options of how to connect parents and teachers any times throughout the year. Parents can still connect face to face, PLUS they can email or call their teacher and/or they can access information such as grades, attendance, behavior, and homework online at any time. In closing, some individuals were concerned that Adams 14 may be violating the OCR Agreement. I can honestly say that we have been monitoring and honoring this Agreement faithfully. We have processes in place to assure we are complying with all components of the Agreement. In addition, we have also secured the assistance of a third party expert in response to these allegations. To assure we are complying with the Agreement we have invited the Colorado Department of Education to perform an audit of our English Language Acquisition program and to guide us through modification in our Turnaround Plan for Limited English Proficient students. Dr. Abrego finished with sharing the video created to show and explain the new way of conducting conferences.

### Superintendent’s Report

**CHSAA Fall Leadership Conference Presentation**— Student Council participants from Adams City High School informed the Board of Education that the CHSAA Fall Conference is where student councils from all around Colorado meet to share ideas and events that their school’s plan. The conference is held at a different location every year, this year it was in Grand Junction. Students learn about what being a leader in schools and communities really means. The group learned new ideas and methods on how to run student council in a more successful manner, new leadership skills that can be applied in daily life as well as in school, and ideas for successful school and community events.

**Budget/Finance Presentation**—Sandy Rotella, Chief Financial Operations Officer presented an update on the 2017-2018 budget.

The department of Federal Programs request approval to apply for the BEST grant for use during the 2018-19 school year in the amount of \$25,000 - \$100,000,000.
